PROFESSIONAL SUMMARY

Mobile Application Developer and Flutter Developer with 3+ years of professional experience independently building, maintaining, and releasing production cross-platform applications for Android and iOS. Experienced in Flutter/Dart, REST API integration, GetX, Provider, Riverpod, MVVM/layered architectures, local persistence, Firebase/FCM, debugging, manual/device testing, and end-to-end Google Play and App Store delivery.

TECHNICAL SKILLS

Languages & Mobile: Dart, Java, SQL, XML, Flutter, Android SDK

State & Architecture: GetX, Provider/ChangeNotifier, Riverpod, MVVM, Layered Architecture, Repository Pattern, Dependency Injection

APIs & Data: REST APIs, Dio, HTTP, SQLite, Drift, SharedPreferences, Firebase, FCM

Mobile Capabilities: VDoCipher, WebView, Deep Linking, Local Notifications, Responsive UI, File Handling

Tools & Delivery: Git, GitHub, Branch/Merge/Pull Request workflows, Postman, Android Studio, VS Code, Google Play Console, App Store Connect, TestFlight, Xcode signing, Android signing/keystore, AAB releases

PROFESSIONAL EXPERIENCE

App Developer | Medigene IT | Feb 2023 - Present

- Serve as the sole Flutter developer, independently owning the mobile application lifecycle across multiple production products while collaborating with backend developers who build the required APIs.
- Architect and implement Flutter features, responsive UI, state management, REST API integration, local persistence, debugging, performance improvements, and Android/iOS compatibility.
- Develop and maintain applications spanning medical education, examinations, mentor workflows, HR management, and Islamic learning/content platforms.
- Manage end-to-end Android and iOS releases, including versioning, AAB publishing, signing/keystore management, Google Play Console, Xcode signing, TestFlight, App Store Connect submissions, and production updates.
- Use Git/GitHub with regular branch, merge, and pull request workflows; perform manual and device testing before releases.

Intern | Flora Ltd | Aug 2017 - Oct 2017 - Assisted with computer assembly, OS/software configuration, troubleshooting, and technical support.

SELECTED PROJECTS

Genesis Learning Ecosystem - Genesis Edu, Edudent & Genesis BCS Care | Flutter, Dart, GetX, MVVM, REST API, VDoCipher

- Developed audience-specific learning apps on a shared e-learning platform for doctors, dentists, and BCS/government-job aspirants, covering courses, batches, exams, subscriptions/payments, video learning, notifications, and performance tracking.
- Built modular API-driven workflows with GetX state management, authentication/device verification, advanced exam flows, reusable UI, and secure VDoCipher video delivery.

Genesis Mentor | Flutter, Dart, Provider, Repository Pattern, REST API

- Developed a multi-platform mentor and exam-management application with layered Provider -> Repository -> Service/API architecture, reusable components, and structured error handling.
- Implemented advanced question-bank workflows including search/filtering, pagination, question creation/formatting, assignment, replacement, review, discussion, references, and solved-video access.

The Message Academy | Flutter, Dart, REST API, YouTube, Deep Linking

- Developed a cross-platform Islamic learning application integrating Quran with audio, Hadith, articles, courses, quizzes, videos, Q&A, daily checklists, search, sharing, and Arabic/Bengali content rendering.

PG Easy | Flutter, Dart, GetX, REST API, SQLite, SharedPreferences

- Developed medical exam-preparation workflows for course/batch enrollment, MCQ/SBA exams, schedules, results, customizable question sets, payments, study resources, and performance tracking.

CashFile | Flutter, Dart, Riverpod, Drift/SQLite, Repository Pattern

- Built and released a local-first personal finance app for Android and iOS with ledger/transaction management, categories, tags, parties, local persistence, database migrations, and structured Riverpod-based state management.

DG HRM | Flutter, Dart, GetX, Dio, REST API, Firebase/FCM

- Developed HR workflows for attendance, leave, employee records, notices, tasks/to-dos, approvals, calendar-based interactions, notifications, and local persistence.

EDUCATION & TRAINING

BSc in Computer Science Engineering | Green University of Bangladesh | CGPA 3.37/4.00 | 2022

Diploma in Engineering - Computer Technology | Barisal Polytechnic Institute | CGPA 3.01/4.00 | 2017

Training: App Development with Flutter - Ostad (2024) | Zero to Hero in Android App Development - Bongo Academy (2023)
